PEARY WILL TRY TO PROVE COOK A LIAR

Sydney, N. S., Sept. 12.-Plenty of evidence designed to back up his state-ment that Dr. Cook did not reach the North Pole is in the hands of Commander Peary, according to assertions made here tonight. This view is taken by a large number of explorers, scientists and others, who are here to greet the explorer.

"Commander Peary will have with him incontestable proof to support every statement he has made in connec tion with Dr. Cook's trip to the Arctic." Herbert L. Bridgman, secretary of the Peary Arctic club, said, "Everyone who knows Peary realizes that he never makes statements unless he can prove them absolutely. proper time arrives, and that will be when Dr. Cook has made his statements over his signature, the proof will be forthcoming. I quite with President Hubbard of the Pears Arctic club that Dr. Cook might have learned weeks ago in Greenland of Commander Peary's discovery and Commander ing musk oxen for sport in the winter that in the interim he wove the story of his discovery of the North Pole News, you know, travels fast among the Eskimos and it is quite likely Cook heard of what Peary had done.

Bridgman Is Flattered. Mr. Bridgman said he felt much flat tered that Commander Peary had state ed that he was "the only logical candidate for the Polar commission

"The Belgian government in 1896" said Bridgman, "invited the several nations to attend an international polar commission. The United States designated me to act as its representative at the congress and I took my credentials from the various geographical societies, Arctic and Explorers' clubs. Two years later a definite call for a meeting of the commission was issued

sels in May of that year.
"The commission was designed to develop a sort of co-ordinate system of Arctic exploration which would have presented just the sort of controversy which has now arisen. The commis sion also planned to define the work of the geographic and other scientific branches of such Arctic exploration in order that the results of each expedition might be determined and labor

Peary Moves Precisely, "Commander Peary felt I should be made commissioner, but nothing fur-

ther was done in the matter. Commander Peary is moving south-ward in the same precise manner that characterized his methodical and well calculated dash for the pole. Roosevelt is being overhauled and painted at Assize Harbor, near Battle Harbor, and her commander has or dered that every injury sustained in her long stay in the ice cradle of Can-Sheridan shall be removed before she

CAPT. SMITH HAS FAITH IN DR. COOK

Seattle, Sept. 12.-Captain E. A. Swift of the barge Neptune, which arrived in port today, declares that he in Dr. Cook, and not only believes that he discovered the north pole, but also that he ascended Mount

"Dr. Cook was braye, fearless and a born leader of men," said Captain Swift. "At the time he entered Alaska he talked of ascending Mt. McKinley, and he made a proposition to me that I refused because of its danger. Dr Cook proposed that I take him up the Chullitna rapids, through the box canyon, in his launch. I had never seen the rapids, but knew that the trip would be very dangerous, and I declined to try it. Dr. Cook took two men and went through the rapids. Afterwards I met a miner who told me he had seen the launch in the canyon, with full power on, making sure but slow headway up the stream

"After Dr. Cook ascended the rapids he landed at the base of the mountain on the south side, where he followed beaten tracks of animals up the moun-tain. This he told me afterwards, and I know him well enough to be certain that he ascended Mount McKinley at that time, as he asserted.'

FRANCE MAY SETTLE COOK-PEARY DISPUTE

Washington, D. C., September 12. Little, if any, progress has been made toward settling the Peary-Cook controversy over the discovery of the North Pole. Sentiment in this country and abroad strongly favors placing the whole matter before an un-biased scientific commission for decision.

Dr. Cook's adherents are standing firm, producing everything at hand to Commander Peary's discredit, while the Peary backers acclaim the com-mander as the only discoverer of the pole and defy Cook to establish his right to the achievement.

Both from Germany and France. there came yesterday recommenda-tions for deciding the famous quarrel by scientific methods.

In New York, the Arctic Club of

America is completing arrangements for the banquet to Dr. Cook on Thursday evening, September 23, while the Hudson-Fulton commission is planning to have both explorers in New

York during the celebration. Dispatches from Paris indicate that France will not be adverse to acting as mediary in the dispute, as peculiarly fitted for this position.

AVIATOR CURTISS WINS MORE FAME

Brescia, Sept. 12.-Glenn H. Curtiss the American aviator who won the international cup at Rheims, added, further honors to his brilliant record by capturing the grand prize in the aviation meet here today. Curtiss made his flight yesterday, covaring 50 meters, or five times around the course in 49 minutes, 24 seconds. His day on the share of the \$10,000 prize is \$6,000. Rougier, the French aviator, also competed for the grand prize, making

a flight of 50 kilometers in 1:10:18, winning second prize. Curtiss also won the prize for quick starting, his time being 8 1-5 econds. Le Blanc was second in this

contest in 9 3-5 seconds. Princess Letitia, step-mother of the Duke of Abruzzi, was present and re ceived all the foreign aviators. She congratulated Mr. Curtiss. Would you take me with you?"
"Delighted, if my machine were

for carrying passengers," replied Mr. Curtiss. Bleriot made several brilliant flights but did not compete for the five nights. grand prize, after which Curtiss entered for the altitude prize. He as-(about 165 feet), thereby gaining sec-ond prize, while the first prize was awarded to Bougier, who danced around with delight, saying:

"Curtiss is a true gentleman. He might have gone higher than I, but he promised to leave me the first and he has kept his word. This is real American chivalry."

HISTORICAL LA PAZ IS DESTROYED

St. Louis, Sept. 12 .- A special from La Paz, lower California, says: "La Paz, the oldest settlement of the Californias, is in ruins. The most terrific storm ever known here has wrought havoc in and about the oid Pueblo. Seven lives are already known with wreckage from ships and boats the roadsted. "In many places the water is four

feet deep in the streets and some of Robert E. Peary, install my boatswain and the conference was held in Brust the streets are channels for raging in this deserted house.'

and the conference was held in Brust the streets are channels for raging sels in May of that year.

Streams. House, have crumbled and others are badly damaged.
"Great suffering exists. The coun-

try districts report indications of devi-astation there has been great. "The tornado swept upon the 'Place of Peace' without warning, and 22 companied by rains deluged the streets and nearby hills. Many boats along the shore and anchored in tho bay were battered to pieces in colision or thrown upon the beach.

'Darkness added to the terror of the people. Many of them were convinced that the end of the world was at hand and crowded the old mission church in a delirium of fear There are few Americans in La Paz and none of them have been injured or lost their ives, although they suffer severe loss of property and goods."

Washington, Sept. 12 .- In official circles here more than ordinary interest is excited over the investigation in New York into the alleged illegal operations of some of the trans-Atlantic steamship lines, especially the Holland-American line, that these lines have entered into enspiracies with certain American railway lines in restraint of trade. hat rebates have been paid them by ome railroads and that they hav laid themselves liable to prosecution under the terms of the Sherman antirust act did not surprise those who had followed the proceedings in what was known as the Cosmopolitan ship ping case before the Interstate Comerce commission.

The proceeding was brought by the Cosmopolitan Shipping company of Philadelphia against the Hamburg-American Packet company and other trans-Atlantic steamship lines. It is alleged that the ocean lines name had entered into an arrangement with American railroads by which the bulk of European freight sent to this ship companies in the pool to the detriment of the Cosmopolitan company, which also operates a line of trans Atlantic steamers.

The Interstate Commerce commis sion investigated the complaint, but dismissed the case on the ground that I it has no authority to act. The ev dence was turned over to the depart

ment of fustice. Not only are the regular trans-A lantic lines involved, but the South American steamship companies have en brought into the government in vestigation. The charges affect par icularly the coffee trade, which is one of the predominating factors in the freight traffic between the United States and Brazil and other countries on the South American continent. The investigation of the South

American steamship lines is not as well developed, but the allegations are of a startling character and if sus-tained by the investigation, promise very important developments. Wade H. Ellis, assistant to the at torney general, today expressed sur prise that the matter had become pub

lic and declined to discuss it.
